

Health Care

Pets need regular check-ups by a veterinarian. A veterinarian is a doctor that takes care of animals. A veterinarian will examine a pet to make sure it is healthy. They may also give a pet shots to help keep it from getting sick. Veterinarians are very good at giving advice on how to take good care of pets.

Draw an arrow from the name of the body part to the picture where a veterinarian will check Maddie for good health.

TUMMY

This coloring page was inspired by a dog named Maddie, the frisky, energetic, loyal and loving companion of Cheryl and Dave Duffield. Because of their enormous love for Maddie, the Duffields started a foundation called Maddie's Fund[®] to save the lives of dogs and cats throughout the nation.
